

I do not want to lose K-Love. I listen to this station all day and also whenever I am in the car. There are many employees in offices here at the hospital that listen to this same station. It lifts you up and clears your mind for all of the daily trials that you have to go through. K-Love is a part of my life. Naturally the devil is in there trying to get rid of it because he hates for us to keep our minds on Jesus Christ. Please do not take this station from us. Surely all the testimonies that were on during the Fall Pledge Drive would show everyone who listened, that this is a most important station.

Let us keep K-Love.
